

PRICE LIST

All prices are in US funds - Valid until July 1, 2026

Most Currencies accepted

Listed prices are for Perpetual licenses but Subscription licenses are available

Licenses included ONLINE training and support

EMIGMA XV Exploration Packages

full database platform allowing multiple surveys and large survey sizes

<p><u>EMIGMA COMPLETE – Airborne, Ground, Borehole, Marine</u></p> <p><i>For Magnetics, FDEM, TDEM, Gravity, IP, Resistivity, MMR, VLF, CSEM/CSAMT</i></p> <p><i>Includes QCTool Basic plus Gravity & Magnetics tools</i></p>	<p>\$10,000</p>
<p><u>EMIGMA EM for Oil and Gas</u></p> <p><i>EM and Magnetics Applications for airborne, ground, marine and borehole surveys</i></p> <p><i>Including Natural fields and controlled source electromagnetics plus our magnetics tools</i></p> <p><i>Including Land-Based CSEM</i></p> <p><i>MT, ZTEM, AFMAG, MTEM, TEM, FEM, IP, Resistivity, CSAMT</i></p> <p><i>Includes QCTool Basic plus Gravity & Magnetics tools</i></p>	<p>\$12,000</p>
<p><u>EMIGMA for Magnetics – Airborne, Ground, Borehole</u></p> <p><i>2D FFT/DFT, 2D/3D Inversions, Weak and Strong Modelling, 3D Euler solutions</i></p> <p><i>Includes QCTool Basic plus Advanced Magnetics tools</i></p>	<p>\$3,500</p>
<p><u>EMIGMA for GRAVITY – Ground, Borehole applications</u></p> <p><i>2D FFT/DFT, 2D/3D modelling, 2D/3D Inversion, 3D Euler, Gravity Corrections</i></p> <p><i>Includes QCTool Basic plus Advanced Gravity tools</i></p>	<p>\$3,500</p>
<p><u>EMIGMA for Marine Gravity and Magnetics</u></p> <p><i>For processing, modeling and inversion of general marine potential field systems</i></p>	<p>\$8,000</p>
<p><u>EMIGMA Ground COMPLETE – Ground Surveys</u></p> <p><i>IP/Resistivity, FDEM, TDEM, Magnetics, Gravity, CSEM/CSAMT</i></p> <p><i>Includes QCTool Basic plus Gravity & Magnetics tools</i></p>	<p>\$8,000</p>
<p><u>EMIGMA for Land-Based CSEM and CSAMT</u></p> <p><i>ground surveys, single or multiple grounded current sources, electric and/or magnetic field measurements</i></p> <p><i>Includes QCTool Basic for raw data processing</i></p>	<p>\$3,500</p>
<p><u>EMIGMA for IP/Resistivity – Ground</u></p> <p><i>PseudoSections, 3D Resistivity Inversion, 1D Inversion, 2D/3D modelling package</i></p>	<p>\$2,000</p>
<p><u>EMIGMA for IP/Resistivity Borehole and Crosshole</u></p> <p><i>Surface, surface to borehole and crosshole applications</i></p> <p><i>Forward Modelling, 1D and 3D resistivity inversion for multiple fields and transmitters</i></p>	<p>\$4,000</p>
<p><u>EMIGMA for MMR</u> <i>Surface and surface to borehole</i></p> <p><i>Basic plus 3D modeling</i></p> <p><i>Also available as add-on to EMIGMA for IP/Resistivity</i></p>	<p>\$2,000</p>

PRICE LIST

All prices are in US \$ - Valid until July1, 2026

<u>EMIGMA for TDEM – Ground, Borehole, Airborne</u>	\$5,500
<u>EMIGMA for TDEM – Ground, Borehole</u>	\$3,500
<i>Basic, 3D Modelling, 3D Plate Inversion, Extensive 1D inversion capabilities including offset Tx-Rx configurations</i>	
<u>EMIGMA for FDEM – Ground</u>	\$2,500
<i>Basic, 1D inversion, 3D modeling, 3D Plate Inversion</i>	
<u>EMIGMA for FDEM – ground, borehole and airborne</u>	\$4,000
<i>Basic, with Pseudo-Depth imaging, 1D inversion, 3D modeling, 3D Plate Inversion</i>	

Academic Packages

Please contact us for academic prices

QCTool V6.5

QCTool V6.5 BASIC

*Includes 1 year of email support and upgrades
Quality Control, Processing, extensive Filtering apps, very large survey sizes
Data station linked Spreadsheet, Plotter, Grids, Mapping
comprehensive GNSS tools And more*

Add-on features

Gravity corrections, magnetic corrections, FFT/DFT tools

Aeromagnetic Compensation for drones, UAV, marine, helicopter and fixed wing

Basic Price - \$250 USD/license for more details refer to www.qctool.ca

*All above prices are in USD
Training is available on request.
Please request a quotation.*
